Raining in the Mountains   Richard Love

I wish that I could tell you
I wish that you could see
The feelings that come every time
You're lying next to me

I thought my time was over
To fall in love and be
Missing a woman
Who is back home missing me

And it's raining in the mountains
They tell me that a flood is on it's way
Just cloudy rain without you
I haven't seen sunshine all day

I thought my time was over
To fall in love and be
Missing a woman
Who is back home missing me

And it's raining in the mountains
They tell me that a flood is on it's way
Just cloudy rain without you
I haven't seen sunshine all day

Now I know, I have no doubt
These feelings must be true
'Cause every girl that I've seen today
Just makes me think of you
Every girl that I've seen today
Just makes me think of you
